long history in the statistical literature. A famous work is the classical monograph by Barlow et al. (1971), which summarized the development of order CSI in the 1950s and 1960s. Robertson et al. (1989) captured the developments of CSI in the 1970s to early 1980s and Silvapulle and Sen (2005) present the state-of-the-art with respect to CSI.
