### Harley Davidson Twin Cam Engine

The Harley-Davidson Twin Cam are motorcycle engines made by Harley-Davidson from 1998 to 2016. Although these engines differed significantly from the Evolution engine , which in turn was derived from the series of single camshaft , overhead valve motors that were first released in 1936, they share a number of characteristics with nearly all previous Harley-Davidson engines .

### Harley-Davidson Twin Cam engine - Wikipedia

The main problem of the Twin Cam engine of the Harley Davidson is probably it's the design aspect of the cam chain system. The actual design itself is designed poorly. It utilizes plastic shoes "riding" on the cam chains that can and will actually wear out in due time.
