Hmm - this is going to be a more difficult issue than I had anticipated. I have been unable to find any good explanation of VLSM anywhere on the Net. It's mainly general subnetting issues that barely touch on VLSM, much less give tutorials on it. I'm not ready for practice questions and such, since I don't even understand it.

VLSM practice — TechExams Community

With the speed tips in this video, and a little practice, it won't be unreasonable to be able to solve subnetting questions in as little as 10 seconds. In Video 6 , we show you how to extend the Subnetting Cheat Sheet to allow you to solve problems in the /17-/24 range just as easily as the /25-/32 range.

IPv4 Subnetting Practice

VLSM and our next topic, summarization builds up on subnetting. If you still have doubts on subnetting, I would strongly suggest you devote some more time to it and practice before moving ahead. You also may want to consider picking up our 100 page How & Why We Subnet Workbook. This workbook walks you through [...]

2-4 Variable Length Subnet Masks (VLSM) - Free CCNA Study ...

Here we go, we just subnetted our 192.168.1.0 /24 by using VLSM. Let's try another example but this time we use a Class B 172.16.0.0 network with different requirements: One subnet for 340 hosts. One subnet for 250 hosts. One subnet for 31 hosts. One subnet for 20 hosts. One subnet for 8 hosts.

Variable Length Subnet Mask (VLSM) - NetworkLessons.com

Enter the last valid host on the network 10.209.221.20 255.255.255.252:
